

2012 International Conference on Future Communication and Computer Technology (ICFCCT 2012) 2

ISTP indexed
2012
<http://www.icfct.org/>

2012 International Conference on Future Communication and Computer Technology (ICFCCT 2012)
will be held in Beijing, China during May 19-20, 2012.

The aim objective of ICFCCT 2012 is to provide a platform for researchers, engineers, academicians as well as industrial professionals from all over the world to present their research results and development activities in Computer, Network and Communication Technology. This conference provides opportunities for the delegates to exchange new ideas and application experiences face to face, to establish business or research relations and to find global partners for future collaboration.

Submitted conference papers will be reviewed by technical committees of the Conference. ICCNCE 2012 will be published in the conference proceeding, and will be indexed by Thomson ISI Proceedings.

ISBN: 978-988-15121-4-7

Important Datey

The submission of Round II

E-commerce and E-learning 1
 Geographical Information Systems (GIS) 1
 Networking 1
 Signal Processing 1
 Embedded System 1
 Communication and Wireless Systems 1
 Multimedia Systems and Applications 1
 Emerging Technologies 1

Network Technologies 1
 Wireless I& Mobile Networking
 Wireless Sensor Networks 1
 Cognitive Radio Networks 1
 Ad Hoc, Sensor and Mesh Networking 1
 Next-Generation Networking and Internet 1
 Wireless Network Security and Privacy 1
 Networking and Information Security 1
 Network Protocol and Congestion Control 1
 QoS, Reliability I& Performance Modeling
 Mobility, Location and Handoff Management 1
 Capacity, Throughput, Outage and Coverage 1
 Multimedia in Wireless Networks 1
 Optical Networks and Systems 1

Computer
 Algorithm and Applications 1
 Artificial Intelligence 1
 Cloud Computin 1
 Communication Networks and Protocols 1
 Database Technologies 1
 Distributed and Parallel Computing 1
 Hardware Design and Implementation 1
 Information Security 1
 Multimedia and Graphics Technologies 1
 Operating Systems 1
 Simulation and Modeling 1

Communication
 Signal Detection and Parameter Estimation 1
 Signal, Image and Video Processing 1

Speech and Audio Processing 1
Wireless Communications 1
Communications Transmission 1
Network Communication 1
Mobile and Ubiquitous Computing 1
Ad hoc and Sensor Networks 1
Network and System Security 1
